FOUNDING PARTNER PROGRAM

Help Shape the Future of School Memories

2026–27 Founding Cohort

Every Student Included. Zero Friction. Never Miss a School Moment.

01 — OUR MISSION

Why We Created the Founding Partner Program

Nostaview is on a mission to transform the way schools capture, organise, and preserve student memories. For too long, the responsibility of building a complete and equitable school memory archive has fallen on a small number of overworked advisors, relying on outdated tools and manual processes that leave students underrepresented and memories uncaptured.

The Founding Partner Program invites a select group of 40 schools to be part of the solution. Founding Partners receive full, complimentary access to Nostaview Pro throughout the 2026–27 academic year - not as beta testers, but as co-architects of a platform built specifically for schools like yours.

"Every student deserves to be remembered. Every school deserves a tool that makes that possible - without adding burden to already stretched staff and advisors."

02 — SCHOOL BENEFITS

What Your School Receives

Founding Partner Schools receive the full Nostaview Pro platform at no cost for the entire 2026–27 academic year. This includes every platform feature available at launch - and every new feature released during the cohort year.

- **Complimentary Nostaview Pro access** for the full 2026–27 academic year - including all platform features with no usage caps or feature restrictions.
- **Automated Curation Indexing (ACI)** - AI-powered photo matching that automatically identifies and attributes student photos across every uploaded event, eliminating manual sorting.
- **QR-Code Photo Crowdsourcing** - a frictionless system that allows parents, staff, and students to contribute photos directly to the school's secured memories pool from any device.
- **Inclusive Coverage Dashboard** - real-time visibility into which students, classrooms, and events are well-represented - and which need attention - before yearbook layout season begins.
- **Priority onboarding support** - your team works directly with Nostaview's founder to configure the platform before school resumes in August 2026.
- **Early access to new features** - Founding Partners receive all platform updates before general release throughout the year.
- **Direct product influence** - your feedback shapes Nostaview's roadmap. Founding Partner input is treated as a standing advisory voice, not a survey response.
- **Founding Partner recognition** - your school is acknowledged as a founding contributor to the future of school memories management.

03 — OUR
REQUEST

What We Ask in Return

We have deliberately kept our ask minimal. Nostaview's goal is to earn a place in your school's workflow - not to create additional obligations for your team. Participation requires only the following:

- **Active platform use** during the academic year - uploading photos, running coverage analyses, and building your school's memory archive through the platform.
- **Periodic feedback** - brief, structured check-ins at key points in the year (start of semester, mid-year, and year-end) to share what is and is not working.
- **A year-end review** - a 30-minute conversation with the Nostaview team to reflect on the year, discuss outcomes, and inform the next cohort's experience.
- **A testimonial** if the platform delivers value - shared with your permission only, in formats of your choosing (written, video, or case study).

04 — IDEAL
PARTICIPANTS

Who Should Participate?

The Founding Partner Program is designed for school staff who are directly responsible for capturing, managing, or publishing school memories with FERPA and COPPA compliance. The ideal school contact is:

● Principals & School Administrators	● Yearbook Advisors & Publications Teams
● Front Office & Registrar Staff	● Athletics & Extracurricular Coordinators
● PTA / PTO Leadership	● Communications & Social Media Coordinators

05 — TIMELINE

Program Schedule

Enrollment Period	Summer 2026	Invitation and acceptance reviewed from 40 schools selected for the inaugural cohort.
Onboarding	Before School Resumes	Dedicated setup session with the Nostaview team - platform configured and staff ready before Day 1.
Active Participation	2026–27 Academic Year	Full platform access throughout the school year with ongoing support and feature releases.
Review & Renewal	Spring 2027	Year-end review, feedback collection, and discussion of continued access and next-year pricing.

06 —
AVAILABILITY

Limited to 40 Schools Nationwide

Only 40 schools will be selected for the inaugural 2026–27 Founding Partner Cohort. This is a deliberate decision. Nostaview is committed to providing every Founding Partner school with direct, high-touch support - and that requires keeping the cohort small enough to honour that commitment.

Schools are selected on a rolling basis. Once the cohort of 40 is complete, enrollment closes for the 2026–27 academic year. Schools that apply after the cohort fills will be placed on the priority waitlist for the 2027–28 cohort.

"Founding Partner status is not a trial. It is a partnership - and one that comes with first-mover advantages, including discounted pricing locked in at the cohort expiration when public rates take effect in 2027."

07 — PLATFORM
SNAPSHOT

What Nostaview Pro Includes

QR-Code Photo Crowdsourcing

Parents, staff, and students contribute photos instantly via QR code - no app download, no account required.

Auto-Collage Builder

AI-assisted photo collage creation from one or multiple uploaded event photo galleries on the school dashboard.

ACI + Inclusive Coverage Insights

AI-powered photo attribution with live dashboard shows student representation across all events - flagging gaps before yearbook layout deadline.

08 — CONTACT

Request a Walkthrough

To register for the Founding Partner Cohort or to schedule a platform walkthrough for your administration team, please reach out directly to our founder. We respond to every inquiry within one business day.
